## **Propane Safety Industry Workshop 2017**

### **Objectives:**

- To develop a better understanding of the legal framework (licensing & certification) of propane activities in Ontario
- To understand the basis of technical requirements for safe operation of propane and keep abreast with the latest change in propane codes
- To know what the RSMP are and differentiate between Level 1 and 2
- To examine common field and code issues through interactive discussion

### **Who should Attend:**

- Engineers and Consultants involved with design of propane systems, filling plants and refill centres
- Contractors and Installers performing propane installations
- Technicians and Operators handling, storing and dispensing propane

### **Agenda:**
